

FARM BUILT. . . FARM TESTED. . . FARM READY FOR YOUR FIELDS!

The VBN uses all of the bases in our network combined with powerful server software to create a "virtual" base station in close proximity to where you are working, for extreme accuracy.

DigiFarm VBN ADVANTAGES

- Extreme Accuracy
- Short Baseline Distance
- No need to change radio ID's
- RTK signal available anywhere within the DigiFarm network
- No Line Shifts
- No need for a repeater

**DigiFarm VBN
works with
all major brands
of GPS receivers**
